

From the Studios of Smith Sculptors

*Please find below examples of our
Developers Percent for Public Art Projects
completed in Western Australia*

Background

In Western Australia, it has been the policy of some local councils, that in order to obtain planning permission for a building worth over \$1 million on private land, the Developer must spend a percentage (1%) of the budget on providing a piece of public artwork.

Smith Sculptors has been involved with a number of these 'Developers Percent for Public Art Projects' throughout Western Australia

If you are a Developer, Architect or Builder and would like to engage Smith Sculptors professional services to design and construct an Artwork for your building project, please contact us to discuss.
